PROUD MEMBER OF
SOLINA

Our instant proteins can be added easily to hot or cold meals and beverages, to increase the daily protein intake.

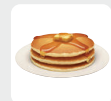

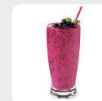

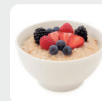

How to use EZ-PROTEIN™ in your daily life:

- Measure one level scoop (7 g of powder) into most hot or cold foods and beverages. Stir until completely dissolved.
- Tube feeding: One scoop into 60-120 ml of water. Administer by syringe through feeding tube.

➤ Plant-based protein can be cooked in temperatures of 75 °C and higher.

➤ Whey protein to be added when temperatures is less than 75 °C.

Easy prep for all menu items
